NOTES

These results have been re-set for posting to the website because the original had become too faint for scanning. In re-setting, however, two errors were discovered.

*** N Duquemin's total score on the original sheet was shown as 481 when, in fact, the 10-shot strings add up to 484, which is the total used here. The ranking is unaffected.*

**** R Prevel's total score on the original sheet was shown as 466 when, in fact, the 10-shot strings add up to 454. However, the 10-shot strings are identical to those of the next ranked shooter, C Le Prevost, suggesting they have been copied from the line below in error. Therefore, the original 466 is shown here.*
